

You are invited to a panel discussion & listen to the personal stories of some Social & Life Entrepreneurs and how they have made a difference in society.

Life Entrepreneurs

How some people have transformed themselves and the Society

A new generation of entrepreneurs is currently emerging called "Life Entrepreneurs". This new generation are persons who apply their vision, talents, creativity, and energy not only to their work, but to their entire lives, thereby changing the world for themselves and those around them.

In the 21st century and especially in the current economy, people are looking for opportunity, challenge, and the chance to develop their talents, achieve success, and make an impact. But they are also looking for a quality home life that provides a work/life balance, rewarding friendships, an active enriching lifestyle, and a deeper fulfillment on so many levels.
